

QUICK GUIDE

TO YOUR PERFECT *power bank*

Did you know?

There is no need to fully charge and discharge your power bank. It is possible to add 10%, 20% or 30% anytime you want. Partial cycles can even prolong the lifetime of your power bank.

Sidney 37.825.12

MULTY CHARGER FOR 5 DEVICES

Multy charger and holder with 3 USB outputs, one Type-C output and wireless charger, in a gift box
Wireless Output: 10W Total power: 50W

How to extend your power bank life?

AVOID FULLY CHARGING YOUR POWER BANK

For best performance and longer lifetime charge your power bank only up to 80% and discharge only up to 20%. Most power banks have a charging status indicator.

DISCONNECT THE CHARGER OF YOUR POWER BANK AS SOON AS IT'S FULLY CHARGED

This is also useful when charging your device.

CHARGE YOUR POWER BANK EVEN IF YOU DON'T USE IT

To keep the power bank in good working condition, you should charge it at least every three months.

CONSIDER TEMPERATURES

The power bank should not be charged at temperatures of under 5 degrees and should not be discharged at temperatures over 40 degrees.
